RE: Accessing online learning

Dear Parents/carers

As fact to face education for many of our students has been paused due to the new National Lockdown I expect that anxiety and frustration accessing online learning if no laptop is available at home may be rising with your child. It has come to our attention that games machines such as Xbox and PlayStation can be used to access online learning as long as they are connected to the internet.

Your child will be able to access the full suite of online resources they need for the work that their teachers will set and use in live lessons. In order to access using Xbox or PlayStation please follow the instructions below:

1. My apps my games (App Store on the device)
2. Access MS Edge or any web browser and search for Office.com
3. Login to your school account (username@pcs.hants.sch.uk) and password
4. You should now be in the student shared area and can access:

Outlook – for email

Word – for typing documents

PowerPoint – for creating presentations

OneDrive – for storing work

MS Teams – where teachers will be setting work and providing links to other content to support learning.

We hope this will support the access of online learning for your child until such time as we return to face to face learning in school.

Kind regards

Jamie Bryce
